Quarter 4 Announcements

We recently learned that to minimize risk of spread of illness, MIT has decided to end in-person classes on March 14 and take a two-week spring break. To de-densify MIT, students are being asked NOT to return to campus, but to join MIT virtually March 30 from home until the end of the semester.

If you are a senior and need to complete the swim requirement, it is important to complete the swim test before you leave campus - it is offered 8a or 8p on Wednesday and Thursday of this week.

Impact on Quarter 4 –

• Unfortunately, in-person Quarter 4 classes are cancelled.

• Physical Education and Wellness is investigating the possibility of offering virtual courses April 6-May 12. The initial priority is to accommodate seniors that need to earn points to graduate.

• If the virtual education solution can be scaled, other students will be invited to register.

• We expect more information to be available by March 30
